Profile Summary

Creative Designer with 4.5+ years of experience driving brand and design strategy across high-growth tech companies. Built and scaled creative teams, launched campaigns reaching millions, and embedded AI workflows to accelerate output.

Work Experience

Asst. Design Manager, NimbusPost

Gurugram, India | Sep 2025 - Present

- Led NimbusPost's brand refresh - built the visual language, design system, and creative standards now applied across all marketing and product communications.
- Manage a 4-5 person design team across brand, motion, and product design; introduced structured briefing and review processes that reduced revision cycles and improved delivery consistency.
- Drive campaign strategy alongside Marketing and Growth - contributing to how ideas are shaped from the start, not just how they're executed.
- Pioneered an AI-assisted creative workflow using Midjourney and Kling, accelerating content production for campaigns and product launches without compromising quality.
- Oversee visual output across every touchpoint - social campaigns, product UI, launch videos, sales decks, emailers, and brand collateral.

Senior Design Associate, Razorpay

Gurugram, India | Apr 2024 - Sep 2025

- Produced visual assets for multiple product launches - motion graphics, 3D renders, pitch decks, one-pagers, emailers, and explainer videos - all delivered in-house.
- Designed 3D product visuals for Razorpay's physical hardware (POS devices, card readers) used across marketing, sales demos, and partner training.

- Owned the full content pipeline for product launches - coordinating across Product, Marketing, and UX to deliver every asset on time and visually coherent.
- Reduced dependency on external agencies by building a complete internal launch toolkit that covered every communication format from awareness to conversion.

Marketing Graphic & Motion Designer Inshorts

Noida, India | *Jan 2022 - Apr 2024*

- Designed multilingual static and motion creatives for marketing campaigns reaching millions of daily active users across India.
- Self-taught motion design on the job - independently learned After Effects, transitioned into motion, and shifted my entire output before leaving.
- Built repeatable visual templates for recurring campaign formats, cutting turnaround time while keeping output consistent across Hindi and English content.

Education

BCA - Computer Applications · VSICS, Kanpur (2018 – 2021)

Left in 2021 to pursue design full-time

Languages

English, Hindi
